

Polyframe.
Making
things simple.

Polyframe

The UK's Largest Independent Fabricator of Trusted PVCu Systems for **over 30 Years.**

We understand that it's important to be able to meet demand for design flexibility and cost-effective time-saving solutions.

We listen and work with you to ensure we're providing the best service and the best products we can.

Support and efficiency

From design to fitting, our expert teams have been specifically trained to help you get the very best out of our products.

With one of the highest quality products on the market, with probably the most comprehensive range of styles, colours and applications, Polyframe can match your project style with confidence. Whilst our Rehau products are manufactured with quality and attention to detail in mind. Nothing is rushed. Nothing is left to chance.

Quality you can trust

Even though we produce over 6,000 frames per week, every Polyframe window and door is meticulously engineered and fabricated to your exact requirements.

From high-security multi-point locking systems, to super-efficient double glazing, Polyframe systems make for an outstanding finished product.

The facts

 Over **6,000** frames per week

Over **30** years' experience

Superior quality system

 **REHAU**

All **70mm** profile in a choice of sculptured and chamfered

Full PVCu window and door product range

22 colours and finishes

10 year guarantee

Yale-backed Polyframe Protection Promise guarantee*

*Specific to hardware configurations/restrictions apply.

The complete range

Superior quality, distinctive styling. Our multi-system PVCu window and door products bring undeniable beauty to your project.

In today's world of modern living, new-build and renovation projects demand the flexibility of space, and our product range has been designed to accommodate almost any application.

Windows

Each project is unique and that's why you can trust the **UK's largest manufacturer** of World's leading window profile.

Renowned for durability, aesthetics and performance, our sleek Rehaus profile is available in a wide range of foils.

Sculptured (Total70S) and Chamfered (Total70C)

There are two casement window options to choose from:

The REHAU TOTAL70 Window and Door System comprises a range of multi-chambered profiles that are designed to meet the requirements of the new-build, commercial and domestic refurbishment markets.

Rehaus Total70s

is a suite of fully sculptured profiles offering heightened style to both modern and traditional properties.

- 28mm single leg bead, sculptured or flat
- Pre-inserted black low-line gaskets throughout
- 5-chamber profiles for improved thermal performance
- Choice of 3 outer frame sizes
- Over 22 colour combinations
- Triple-glazing is available
- Astragal bar option available
- Run-through sash horns available

Rehaus Total70c

is a simple yet elegant chamfered system, helping to create our beautiful contemporary frames.

Rehaus Total70 contains a unique compound with a smooth gloss finish – ensuring its pristine appearance is retained.

Rehau Rio Flush Windows

The Rio flush fit window combines the realistic look and feel of timber, with all the benefits of PVCu. With the Rehau Rio window range, you can have the contemporary performance of a PVCu without compromising the aesthetic of the home.

REHAU Heritage Georgian bars can be used to provide a chamfered finish outside and sculptured finish inside to retain a more traditional look.

- 28mm glazing as standard with option for 36mm triple glazing (not available in 44mm option)
- Traditional low level sculptured bead
- Integral low level gasket
- Choice of frame depths: 52mm, 62mm, 72mm
- Choice of frame styles: sculptured or chamfered
- External chamfer detail for smoother sightlines

Residential and French doors

- Two Part M compliant options, including 25mm aluminium and 52mm or 62mm low plastic thresholds
- Ramps are available with aluminium threshold if site conditions dictate
- Feature grooved with flush knife reverse butt weld
- Pre-inserted black low-line gasket throughout
- Screw-on drip bar – Chamfered
- Over 22 colour combinations

REHAU

SLINOVA®: Slimline sliding patio door.

Outstanding performance and design for modern, energy-efficient homes.

SLINOVA creates harmony between interior and exterior with its slim design and extensive glass surface. Opening in one smooth movement, enter a world where performance and design are one and the same. Offering more light and comfort, SLINOVA blends into living spaces, letting more of the outside in.

Our
slimmest
PVCu patio
slider!

The bright choice Maximise natural light with SLINOVA's large glazing area

SLINOVA is a slim line sliding door with outstanding stability and strength.

- Slimline - 80mm sash sightlines and frame depth, slimmer than Agila
- Easy to operate, durable, low maintenance and easy to clean
- Specially designed, discreet hardware makes the locks completely invisible within the sash
- Outstanding stability and strength
- Available in different colours and finishes inside and out

Security:

- 3-star locking cylinder as standard
- Standard 6-point locking mechanism that incorporates stainless steel hooks for extra security
- Anti-slam pin to prevent misalignment

Window Hardware & Locks

Yale Rapide Window Lock

The Rapide window lock is a unique fully retractable window lock, sitting flush within the Eurogroove, removing the common issues of cam clash and keep alignment found with other styles of lock.

The unique rotating action of the lock provides users with a smooth and easy to close window, with minimum wear to components, leading to a long service life with no loss of compression.

- Superior strength: Fully occupying the eurogroove, Rapide's robust aluminium channel significantly enhances the structural strength
- Advanced performance: Unlike all other window locks, Rapide engages the full length of the keeps, for ultimate security and customer peace of mind
- Instant performance: No need to adjust cams or replace keeps during or after installation - simplifying installation and reducing call backs
- Superior corrosion resistance: Rapide's aluminum construction delivers superb corrosion resistance, further enhancing product service life - even in aggressive environments
- Flexible system: Rapide's off-set locks allow for lower handle placement - enabling greater design freedom and easy operation of taller windows

Yale Rapide

Specifications

- Corrosion tested to BS EN 1670 Grade 5 (480 hours. NSST)
- Endurance tested to 30,000 cycles
- 12-year Mechanical Guarantee

Hardware & Locks

Our hardware doesn't just look the part, it plays a major part in the security and performance of our windows and doors – including those products which contribute to a system that's PAS24 compliant, that's covered by the Secured by Design accreditation.

From our range of stylish ERA handles and YALE shootbolt window locks, Fab&Fix* door and window handles, Mila door handles are used for Satin Anodised Finish and Yale Platinum 3 Star cylinders, to exquisitely engineered window and door hinges and the technologically superior Yale Rapide window lock, our hardware ranges are tough to beat.

*Mila handles are used for satin silver handle products.

Please refer to the tables below for a quick reference guide as to what is on offer through Polyframe.

From tri-clad finishes to multi-lock handles, Rehau window systems offer hardware that combines quality, security, and elegance for the perfect finishing touch.

Let's talk... security

We are passionate about our products and the enhancements they can deliver. But we're also serious about adding security and reassurance, that's why all of our contemporary profiles are available with the **Polyframe Protection Promise**.

As the best homeowner security guarantee on the market, our **Protection Promise** is backed by Yale to offer outstanding protection.

Yale Lifetime Guarantee

World-renowned as the leading name in home security, Yale offers the very best when it comes to property protection. With our trusted range of Yale-eligible hardware, you can rest assured that your any building is professionally protected. With the Yale Lifetime Guarantee, you can benefit from the ultimate peace of mind that ongoing protection brings.

You can even enjoy an upgrade to the standard Yale offer (Polyframe Protection Promise) when they choose a full suite of eligible Yale-approved hardware to PAS24:2022.

Door security

Having high-performance door security features is important for the safety of the home and possessions.

Intelligently designed multi-point lock technology along with advanced gearbox technology gives complete peace of mind.

- 2 pre-compressed rollers allowing the door to seal prior to the hooks engaging for a smooth operation
- 2 upward locking steel hooks to maximise strength
- 2 anti-lifting pins which automatically engage when hooks are thrown, providing enhanced security
- 1 central reverse locking steel hook latch

KM 733369
BS 7412 / PAS 24

Window security

Our technologically advanced windows feature outstanding locking mechanisms engineered from high-strength materials and designed to protect homes if under forcible attack.

All our windows are rigorously tested against attack and have additional upgrades available, including locking mechanisms up to 8 locking points* to achieve Secured by Design accreditation.

Secured by Design is a UK Police initiative aimed at setting heightened levels of security and testing to reduce burglary and crime. In order to achieve Secured by Design, windows and doors must include additional security features such as hinge guards and glass retention clips. And so, our windows and doors do.

As well as security testing, the window system has been tested to over 25,000 cycles which equates to over 25 years of use. They truly are made to last.

* When the correct Yale-approved hardware and security configuration to PAS24:2022 is installed.

8-point locking system upgrade available for added security

NEW Product... the revolutionary new Rapide lock by Yale

The Rapide Lock from Yale has been created with style and security in mind, and is patented by the world's favourite lock brand.

Designed with security at its forefront, the Rapide Lock offers durable protection you can rely on, as the strongest, safest and most secure window lock on the market.

Key features of the revolutionary new Rapide Lock by Yale:

- Stronger – 300% more contact than standard window locks
- Safer – Tested beyond British Standards of extreme attack
- Longer Lasting – Tested over 42 years of use
- Corrosion Resistant – Tested to the most extreme weather conditions

Offering greater lock engagement for additional security, the innovative Rapide Lock is a game changer in the industry. It connects along the full length of the window keep for sleek and effective protection and comes with a 12-year guarantee.

POLYFRAME PROTECTION PROMISE

When you choose a full suite of eligible Yale-approved hardware to PAS24:2016, you can enjoy the Polyframe Protection Promise† which is backed by Yale to offer outstanding protection against forced entry into homes, making it the best homeowner security guarantee available.

As a commitment to our guarantee, we even offer up to £6500 in compensation should you experience a break-in by means of snapping our high-security Yale cylinder within one of our doors, or one of our Yale multi-point locking systems. Our cylinders feature a sacrificial cut, ensuring only the tip snaps off if the end is grabbed, leaving inaccessible metal ahead of the central locking mechanism.

Please speak to us to find out the full range of security options.

Help with... new Building Regulations

Conserving energy (PART L)

We are proud to be a responsible manufacturer. That means we take changes in Regulations seriously – to ensure we're compliant, and everyone can enjoy our products that meet the current standards.

Due to the changes to Part L and Part F of the Building Regulations in England introduced on the 15th June 2022, all projects are required to be on-spec for thermal efficiency, energy efficiency and ventilation capability.

Our Rehau profile is manufactured using the highest quality materials but it's important to understand how glazing can make a significant difference to how the completed window performs.

Polyframe has compiled a specific guidance document that you can view or download.

Simply visit polyframetrade.co.uk/trade/technical-downloads

It's also worth noting that the new Part L Regulations for New Build properties focus on 'U' values, whilst Renovation Properties will be assessed on Energy Ratings or 'U' Values.

PRODUCT GUARANTEES

Polyframe, in conjunction with its raw material suppliers, guarantees its products for the following duration against:

All PVCu frames are guaranteed for **10 years** against defects relating to workmanship, delamination and discolouration, outside of normal wear and tear.

Sealed glass units are guaranteed for **10 years** against unit failure.

It should be noted that with all types of glass and all grades of energy rated glass, any form of condensation cannot be fully eliminated, but is generally greatly reduced.

Hardware is guaranteed for **10 years** for mechanical operation and against surface finish defects.

Where explicitly mentioned extended hardware guarantees are limited to the component suppliers guarantee – which is passed on to the customer. All claims against these extended guarantees are to be made directly with the component supplier, unless expressly stated otherwise by Polyframe.
